

MALEK BEJI

Junior Full-Stack Developer

+216 53 695 990 bejimalek137@gmail.com La Soukra, Tunisia

Professional Profile

Full-Stack Web Developer with 2+ years of experience in modern web technologies. Expert in front-end (HTML5, CSS3, JavaScript ES6+, React.js, Angular) and back-end development (PHP, Symfony). Specialized in pixel-perfect design integration using Bootstrap and custom WordPress theme development with ACF Pro. Strong focus on SEO optimization, performance tuning, and clean code practices.

Professional Experience

Freelance Full-Stack Developer

Mar 2025 – Present

AppWeb Plus

- Developed and maintained custom CMS websites, focusing on scalability and user experience.
- Engineered complete front-end and back-end solutions for various client projects.
- Managed full project lifecycles independently, from client consultation to deployment.

Full-Stack Developer

Dec 2024 – Mar 2025

AI Dragonfly

- Engineered and integrated AI-based web features using React.js for the front-end and Symfony for the back-end.
- Developed highly responsive and accessible user interfaces, improving user engagement.
- Designed and implemented RESTful APIs to connect AI services with the web application.

Web Developer / Integrator

Apr 2024 – Jun 2024

Light My Web

- Developed dynamic and interactive web interfaces using Angular and React.js.
- Built robust APIs and backend services with the Symfony framework, ensuring scalability and performance.
- Actively participated in the full project lifecycle, from conception to deployment, using agile methodologies.

Web Developer / Integrator

Sep 2023 – Dec 2023

Light My Web

- Converted complex designs from Figma, AI, and PSD into pixel-perfect, responsive websites using Bootstrap and SCSS.
- Built and customized advanced WordPress themes from scratch with ACF Pro for flexible content management.
- Optimized website performance to achieve 90+ PageSpeed scores, reducing loading times by up to 50%.

Web Developer / Integrator

Jun 2023 – Sep 2023

AppWeb Plus

- Developed fully custom WordPress websites with advanced features like e-commerce and multilingual capabilities.
- Implemented comprehensive on-page and off-page SEO strategies, resulting in a 20% increase in organic traffic.
- Delivered modern and responsive front-end interfaces using CSS Grid, Flexbox, and vanilla JavaScript.
